Dear prof. Šoškić!

During fall semester of 2009/10 academic year, DIEM department of University of Bologna is participating in the series of courses organized for engineers which are being introduced into company SCM. You are kindly invited to provide lectures on the module "Sensors for automated machines", which is going to be taught in period 19-30/10/2009. The module consists of 16 classes of lectures and 8 classes of laboratory exercises, followed by a written exam.

You are kindly asked to provide us an answer before 31/7/2009. In the case of positive answer, you will be requested to provide us proposition of a course no later than one month before the start of the module.

In Bologna, on 17/7/2009

Prof Dr Giangiacomo Minak  
University of Bologna  
Department for Mechanical, Nuclear, Aviation  
and Metallurgical Engineering  
Viale del Risorgimento, 2  
40136 Bologna
